Introduction by the Chair and Chief Executive

Andy Field
Chair

Steve Flanagan
Chief Executive

This has been another extraordinary year, which has continued to be dominated by the Covid pandemic. In response to this, CSH has not wavered in our determination to help people in our community live the healthiest lives possible.

We are immensely proud of the ongoing commitment our colleagues have demonstrated throughout 2021/22, despite facing many challenges in and out of work.

As an NHS community services provider, many of our teams visit people in their homes to provide care and support. We have continued to be there for people when they need our help and have seen first-hand the impact that Covid has had on their lives, not only on their physical health but also their mental wellbeing. Quite often, we were the only people that they saw on a regular basis, providing a welcome respite from loneliness and boredom. Hearing some of the feedback from patients and their families has been truly humbling.

CSH has remained on the very frontline of tackling the pandemic, as the lead Covid mass vaccination provider in Surrey. Based at Sandown Park Racecourse our team continued to protect our community, helping release the nation from the restrictions imposed by the pandemic. Our team continue this work, from a new site in Artington, Guildford.

As the nation began to win the war against the grip of Covid, the demands on our services and our teams didn't abate. Our focus has shifted to the recovery efforts, innovatively tackling waiting lists for services impacted by the pandemic. We have also been part of great transformational change, working in partnership to improve the health, care and wellbeing of our community.

Along with eleven other health and care providers and local authorities, we make up the North West Surrey Alliance, one of the largest public sector alliances in the UK. Together, we will tackle the broader health issues such as housing, education and the environment, to meet the changing needs of our community now and in the future. By removing traditional barriers and boundaries, we are providing joined up care and support to local people.

Our children and family services has used innovation to help reduce waiting times and launched a new transformation programme to improve further the support we offer. We have also been extremely busy, continuing to deliver immunisation services to ensure that children and young people were protected from illnesses.

Thank you to everyone at CSH, our partners and our community for your support throughout this year. As we look ahead to the future, it is clear that there are more challenges to be faced, but there is also more to be hopeful of. We are stronger and even more determined to make a difference for the people we care for, to help them live the healthiest lives they can.

Strategic Report for the year ended 31 March 2022

Principal activities and business review

Central Surrey Health Limited (CSH, the company) trading as 'CSH Surrey' provides both adult and children's community nursing and therapy services to the Surrey area. For the year ending 31 March 2022, its principal contracts were with Surrey and Borders Partnership NHS Foundation Trust, Epsom and St Helier University Hospitals NHS Trust, Surrey Heartlands CCG and Surrey County Council. In addition, it has several smaller contracts with a range of other local organisations.

CSH is an employee-owned social enterprise organisation, working within the health sector. It began trading on 1 October 2006 when over 550 employees from East Elmbridge and Mid Surrey Primary Care Trust transferred into their own employee-owned organisation, becoming co-owners of CSH. CSH operates as a social enterprise with the focus and efficiency of a commercial business. By retaining NHS values and operating as a key part of the NHS network, CSH delivers sustainable investment in its local communities and provides high quality services to its patients, customers, and clients.

Adult community services are provided for Surrey Heartlands CCG in a seven-year contract, commencing April 2017. The service covers all aspects of adult community care including district nursing, walk-in centres, specialist nursing and therapy services, community hubs and bedded care in community hospitals. In year, a new nationally commissioned service for urgent community response has been operationalised to provide care within two hours of referral to patients who may otherwise be at risk of being transferred to and/or admitted to hospital.

On 1 April 2019 CSH entered into a community services delivery partnership in Surrey Downs called Surrey Downs Health and Care Limited. This contract brings together Epsom and St Helier University Hospitals NHS, three GP federations along with CSH (our input only at board level) to deliver a complete community service within the Surrey Downs area. The contract is structured to support better care across

the area and allows each partner to control their resources at the point of delivery.

These contracts consolidate CSH as a significant health system leader for out of hospital care services and provides the platform to provide productivity synergies and further opportunities for improved consistency of clinical outcomes and patient experience across Surrey in partnership with Surrey Heartlands Sustainability and Transformation Partnership.

2021/22 continued to be overshadowed by the world-wide Covid pandemic. As a community service provider, our ability to deliver care to people at home and in our outpatient and inpatient facilities remained severely impacted. However, through innovation and the unwavering dedication of all our colleagues, we have been able to maintain key services.

Adult community services are provided for Surrey Heartlands CCG in a seven-year contract, commencing April 2017. The service covers all aspects of adult community care including district nursing, walk-in centres, specialist nursing and therapy services, community hubs and bedded care in community hospitals.

Strategic Report for the year ended 31 March 2022 (continued)

Principal activities and business review (continued)

We made use of the latest technology to run video consultations, allowing inpatients to see and speak with loved ones and keep in touch with each other through virtual team meetings. At the same time, we were able to continue providing a home care service, with our teams observing stringent infection prevention and control measures.

A community phlebotomy service was created, in August 2021, in response to the increasing demands on the community nursing team. A North West Surrey Alliance project, with funding from NHS England, CSH Surrey partnered with Berkshire and Surrey Pathology Service and commissioned a training programme for new phlebotomists. After recruiting the former personnel from the Covid mass vaccination programme and undertaking a six-week training course and being mentored in the workplace, the community phlebotomy service became a standalone service in August 2021. The service has continued to develop, providing domiciliary phlebotomy services to approximately 1,000 patients each month. By undertaking this work, it allows nursing colleagues to focus on more urgent needs. The development of this service has been recognised as a great example of innovation and collaborative working.

CSH is subcontracted by Surrey and Borders Partnership NHS Foundation Trust and is part of the Children and Family Health Surrey (CFHS) Partnership Board; contracted to deliver children's services under a three plus two-year contract for the whole of Surrey, across the former Guildford and Waverley, Surrey Downs, East Surrey and North West Surrey CCGs commencing 1 April 2017. This contract includes aspects of child physical and developmental health, school nursing, health visiting and continuing health care services. The contract also provides a universal advice and support service to all babies and families, a public health and immunisation service to all school age children, along with the full range of therapy and intervention services.

CSH has continued to provide all services through the Covid pandemic and has successfully developed an innovative range of new service offers including early intervention multi-disciplinary team approaches for pre-school children and virtual appointments for working families.

During 2021/22 we launched a new transformation programme with the aim of improving a number of services for our Surrey children and families. We expanded the Community Health Early Support service, offering early support to a number of new families. We launched a new antenatal support service called 'Bump and Beyond' for parents-to-be from 28 weeks pregnant onwards. As Covid restrictions lifted we were able to resume face-to-face clinics for families but retained an innovative virtual offer to enable busy parents to access advice and support at their convenience.

We secured some supportive additional funding from Surrey County Council to help improve waiting times for children who require occupational therapy.

CSH has continued to provide all services through the Covid pandemic and has successfully developed an innovative range of new service offers including early intervention multi-disciplinary team approaches for pre-school children and virtual appointments for working families.

Strategic Report for the year ended 31 March 2022 (continued)

Principal activities and business review (continued)

The support we provide to the Learners' Single Point of Access (L-SPA) has been so valued that Surrey County Council have agreed to extend the funding for our colleagues' input.

Although recruitment remains one of our biggest challenges, as it is across the NHS, we have been successful in recruiting new therapist colleagues from overseas.

The school immunisation service successfully delivered a full range of vaccinations, along with a comprehensive Covid vaccination programme.

The children's speech and language therapy service launched a pilot project to support GPs with early help and advice.

Responding to the Ukraine crisis, we expanded the health inclusion service to promptly meet the needs of new asylum-seeking families and refugees.

We worked with Surrey County Council to meet the additional needs self-assessment and transformation programmes and with our partners to review the delivery model of continuing health care.

In accordance with requirements, CSH is registered with the Care Quality Commission (CQC) as an independent healthcare provider. During 2021/22, the CQC has not taken any enforcement action against CSH nor imposed any registration or special reviews. CSH has not been required to participate in any investigations.

CSH Surrey was inspected by the CQC in January 2017 and, at that time, was awarded the overall rating of good. We have continued to seek assurance that the services we provide are safe, effective, caring, responsive and well-led.

In December 2021, CSH commissioned the company Deloitte LLP to undertake an independent developmental review of the leadership and governance at CSH Surrey, using the NHSI well-led framework. A range of methods and tools were used including a

desk top review of documents, observations, a board effectiveness survey and staff survey and non-attributable interviews and focus groups.

Following initial feedback on the findings by Deloitte, the final report was received into the organisation on 27 May 2022 and gave an insight into the organisation and the effectiveness of leadership and governance arrangements in place. The report and its recommendations informed further development and improvement.

During 2021/22 CSH has continued to engage with our CQC relationship managers and have built on existing relationships to improve communication and information sharing between the two organisations. We continue to monitor escalations and the submission of any notifications through our Datix system to ensure that they are managed in a timely and effective way.

The CQC carried out a planned inspection of our core services during summer 2022 under the well led framework and the draft report on their findings was shared in October 2022, where we were rated as 'good' overall and 'good' in all the Key Lines Of Enquiry (KLOEs).

Responding to the Ukraine crisis, we expanded the health inclusion service to promptly meet the needs of new asylum-seeking families and refugees.

Strategic Report for the year ended 31 March 2022 (continued)

Key Performance Indicators (KPIs)

CSH monitors its financial and non-financial performance through KPIs and some of the key measures are summarised below.

During 2021/22 we have been focused on our organisational CARE values as evidenced in our staff survey results:

- We care with Compassion: we look after each other, speak kindly and work collaboratively
 - 59% of colleagues look forward to coming to work.
 - 74% believe their immediate manager takes a positive interest in their health and well-being.
 - 76% feel care of patients/service users is the organisation's top priority.
- We take Accountability: we take responsibility, act with integrity, and speak with honesty
 - 87% of colleagues know what their work responsibilities are.
 - 76% of colleagues say their immediate manager encourages them at work.
- We show Respect: we listen, value, trust and empower people and treat them with dignity
 - 77% of colleagues say they receive the respect they deserve from their colleagues at work.
- We deliver Excellence: we are professional, aim high, value challenge and never stop learning or innovating
 - 88% feel that their role makes a difference to patients/service users.

Furthermore, 67% reported that if a friend/relative needed treatment they would be happy with the standard of care provided by the organisation. 50% of colleagues would recommend the organisation as a

place to work, which was disappointing and we seek to improve this through a range of measures.

Providing quality services is paramount and full details of our non-financial KPIs can be found in our annual quality report, which is published on our website www.cshsurrey.co.uk

We have also started work on the implementation of our people strategy. By focusing on realising our strategic priorities we will ensure that we achieve consistently well-led, better resourced teams with people who feel valued, appreciated and motivated to provide a first-class service to the people we care for.

Financial KPIs monitored on a monthly basis are:

- delivering a financial surplus to invest into our people and the community, CSH had a pre-tax profit of £20,218 (2021: £107,808).
- maintaining appropriate cash balances and to ensure that we meet our financial obligations. CSH cash from operations reflected an outflow of £1,615,796 following settlement of some significant creditor balances but still retains cash at bank and in hand of £10,297,651 (2021: £12,688,052) at the financial year end.

Detailed monthly financial reports are presented and discussed by the executive team and subsequently the finance, digital and innovation committee of the board. This ensures that key decision makers are kept up to date with progress and where appropriate correcting actions are discussed and agreed.

By focusing on realising our strategic priorities we will ensure that we achieve consistently well-led, better resourced teams with people who feel valued, appreciated and motivated to provide a first-class service to the people we care for.

Strategic Report for the year ended 31 March 2022 (continued)

Financial risk management objectives and policies

Financial risk is managed within the context of the risk management strategy, which sets out the overarching framework for identifying, monitoring and mitigating risks. It focuses on the organisational rather than individual perspective and summarises our commitment to minimise risk to our stakeholders through a comprehensive system of internal controls.

The audit and risk committee of the board holds delegated responsibility for ongoing review of CSH assurance and risk management processes, advising the board of any areas of concern. All strategic risks or operational risks are weighted with regards to likelihood and potential impact. Those with a current score of 15 or above are escalated by the relevant board committee through the overseeing director or forum to the executive team for corporate oversight by the relevant board committee.

The principal financial risk facing CSH is that if it does not secure or maintain financial income, it will have insufficient cash flow funding to support and sustain the operational running of the organisation. Key factors in mitigating this risk include:

- CSH and NHS Surrey Heartlands CCG are in discussion to rebase the adults community services contract with the view to increasing available funding.
- Children services contract is secure to March 2024 at which point it will be due for retender.
- funding secured to cover increased costs of the Covid-19 pandemic response.
- Brexit has been assessed as having minimal impact to the financial sustainability and operations of business due to an immaterial effect on our supply chain.
- future energy costs.

Therefore, in this context, the directors consider CSH Surrey's exposure to price, credit, liquidity and cash flow risk to be low. In addition, the information relating to the financial risk management objectives and policies are sufficient to provide assurance as to the assessment of the assets, liabilities, financial position and profit of the company. The directors will continue to review opportunities to deliver a high quality, efficient and effective health care service as well as growth through winning new contracts.

The audit and risk committee of the board, holds delegated responsibility for ongoing review of CSH assurance and risk management processes, advising the board of any areas of concern. All strategic risks or operational risks are weighted with regards to likelihood and potential impact.

Strategic Report for the year ended 31 March 2022 (continued)

Section 172 Statement

The directors of CSH Surrey continue to have regard to the interests of patients, co-owners, commissioners and other stakeholders, including the impact of its activities on the community when making decisions. Acting in good faith and fairly between members, the directors consider what is most likely to promote the success of CSH Surrey for the long-term benefit of patients and the community which we serve.

The importance of giving due consideration to our stakeholders is not new. Stakeholder mapping is conducted on a regular basis with a view to identifying the impact of our decisions. The leadership teams take care to have regard to the likely consequences on all stakeholders of their decisions and actions. Where applicable, decisions are discussed with respective stakeholders so that they are fully understood and supported when taken.

Reports are regularly presented to the executive team on strategy, performance and key decisions taken seeking assurance that stakeholder interests have been considered. In this way the board is formally advised about the views of stakeholders and uses this information to assess the impact of decisions on each stakeholder group as part of its own decision-making process.

Co-owners (employees)

CSH is an employee-owned organisation and places great emphasis on the representation and involvement of employees in decision making. There are several ways in which CSH engages with employees including through the annual NHS staff survey, its regular 'Buzz' newsletter, the staff app (Blink) and regular briefings with a member of the executive team.

The most notable aspect of employee engagement is The Voice, composed of a group of individuals, elected by their colleagues, who represent employee views and interests to the leadership. They attend key meetings of the executive team and board and have an influence on strategy and decision-making.

Clinical Commissioning Groups (CCGs)

CCGs are critical stakeholders as they are responsible for purchasing the community services that we provide. We continued to build strong relationships with NHS Surrey Heartlands CCG, who became Surrey Heartlands ICB from 1 July 2022, holding regular contract review meetings to listen to and understand their needs, discuss operational and performance issues and agree ways to improve service provision in the long term.

It is through these meetings that strategic intentions, service performance and reviews, new ways of working and funding implications are discussed. Evidence of our engagement with this stakeholder group includes:

- CEO appointed as chair of the restoration board for all Surrey.
- CSH's active participation in the North West Surrey Alliance.

Communities

CSH engages with the communities in which we operate to help understand issues that are important to them. We take an active role within the Social Enterprise UK organisation, attending many groups and seminars, working alongside other health care social enterprises and the North West Surrey Alliance.

We continue our commitment to invest any surpluses we make into initiatives that support our people and the local community.

CSH is an employee-owned organisation and places great emphasis on the representation and involvement of employees in decision making.

Strategic Report for the year ended 31 March 2022 (continued)

Partner organisations

Our vision is to be the organisation every partner aspires to work with. Key stakeholders in this aspect include Surrey and Borders Partnership NHS Trust, Epsom and St Helier University Hospitals NHS Trust, Ashford and St. Peter's Hospitals NHS Foundation Trust, First Community Health and Care, and Surrey County Council among others. We have worked closely with these partners to deliver community healthcare services, engagement with CCGs and local councils on continuous improvement. We continue to participate collectively in developing the health and social care strategy for the local health economy.

Future developments

- From April 2022 the North West Surrey Alliance, Integrated Care Board, has developed and CSH initiated a review of the core contract in line with ensuring that service demand and capacity, skills and delivery and interface with partner organisations was reviewed and reset in light of demand pressures in key areas of community nursing, urgent care and bedded care. This has resulted in innovation, new pathways, new ways of delivering care and additional financial investment into the contract.
- we continue to deliver quality children's community services in partnership with key stakeholders.
- we develop effective partnership working with commissioners, local healthcare leaders and other provider organisations and fully engage in the design and implementation of integrated health and social care in Surrey.
- we continue to actively explore additional revenue generating activity with existing and new commissioners and partners.
- we make available the full extent of resources possible to support the government and communities in responding to the Covid-19 pandemic.

- From 1 July 2022, working with the new Surrey Downs Integrated Care Partnership and Surrey Heartlands Integrated Care Board.

This report was approved by the board and signed on its behalf on 13 December 2022.

Steve Flanagan
CEO

From April 2022 the North West Surrey Alliance, Integrated Care Board, has developed and CSH initiated a review of the core contract in line with ensuring that service demand and capacity, skills and delivery and interface with partner organisations was reviewed and reset in light of demand pressures in key areas of community nursing, urgent care and bedded care.

Directors' Report for the year ended 31 March 2022

The directors present their report and the financial statements for the year ended 31 March 2022 for Central Surrey Health Limited (CSH, the Company)

Results and dividends

The surplus for the year, after taxation, amounted to £3,166 (2021 – loss £23,363).

After retaining adequate cover for business risk, the retained profit will be reinvested in the improvement of nursing and therapy services or other activities which further the vision and mission of CSH. As a social enterprise, CSH does not distribute any of its profits or pay any dividends to shareholders, but is able to reinvest all of its retained profits back into the improvement of services for patients and service users.

Directors

The directors who served during the year were:

Andy Field (Chair)
Stephen Flanagan
Peter Lock
Caroline Shuldham
Kim Lowe (resigned 1 January 2022)
John Machin
Frances Davies

Company's policy for payment of creditors

The company negotiates payment terms with each of its suppliers and aims to abide by these terms, subject to satisfactory performance by the supplier.

At the year end, the aggregate amounts owed to trade creditors, expressed in terms of days, as a fraction of amounts invoiced by suppliers during the year and adjusted for the higher volumes of invoices processed in the fourth quarter amounted to 30 days (2021: 30 days).

Statement of directors' responsibilities

The directors are responsible for preparing the strategic report, the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies for the company's financial statements and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Director's Report for the year ended 31 March 2022 (continued)

Qualifying third-party indemnity provisions

The company maintains appropriate directors' and officers' liability insurance on behalf of the directors and company secretary. In addition, individual qualifying third-party indemnities are given to the directors and company secretary which comply with the provisions of Section 234 of the Companies Act 2006 and were in force throughout the year and up to the date of signing the annual report and financial statements.

Disabled employees

The company gives full consideration to applications for employment from disabled persons where the requirements of the role can be adequately fulfilled by a disabled person. Where existing co-owners become disabled, it is the company's policy wherever practicable to provide continuing employment under normal terms and conditions.

Co-owner involvement

The co-ownership model is key to the success of the organisation and all co-owners hold an equal share in the company. They are represented on a co-ownership council called The Voice, whose posts represent operational service lines. The Voice appoints a non-executive director as a board representative. The Voice holds the board to account and works with the directors to ensure CSH meets its strategic aims.

The company has four 'guardian' shareholders who were appointed to represent employees in the ownership of the organisation. A guardian trust, Central Surrey Health Trustee Limited exists to oversee these guardian shareholders with the trustees charged with promoting the best interests of the employees.

The company gives full consideration to applications for employment from disabled persons where the requirements of the role can be adequately fulfilled by a disabled person.

Director's Report for the year ended 31 March 2022 (continued)

Co-owner involvement (continued)

The five-year strategic plan has been reviewed and updated and CSH continues to seek to develop effective partnerships with organisations in health and other sectors, with the focus on making significant differences in the health of local communities and in particular to those disadvantaged areas where there are identified health inequalities.

Sustainability report

In CSH we recognise that we are not only part of the NHS but also part of our community. As such, we are committed to building a sustainable future and to deliver the objectives of the NHS Green Plan.

We are currently developing our own green plan, with the support of Care Without Carbon, outlining the steps we will be taking to support a better environment for our patients, colleagues and the wider communities. We will share more details in our 2022/23 annual report.

The company has not consumed more than 40,000 kWh of energy within the year and as such qualifies as a low energy user and is exempt from further disclosure.

Post balance sheet events

There are no post balance sheet events to report.

We are currently developing our own green plan, with the support of Care Without Carbon, outlining the steps we will be taking to support a better environment for our patients, colleagues and the wider communities.

Disclosure of information to auditors

Each of the persons who are directors at the time when this directors' report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware, and;
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Auditors

The auditor, BDO LLP, will be proposed for reappointment in accordance with Section 485 of the Companies Act 2006.

This report was approved by the board of directors and signed on its behalf on 13 December 2022.

Steve Flanagan
CEO

Independent auditors' report to the members of Central Surrey Health Limited

Opinion on the financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2022 and of its profit for the period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements of Central Surrey Health Limited ('the company') for the year ended 31 March 2022 which comprise statement of income and retained earnings, statement of financial position, statement of cash flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Independent auditors' report to the members of Central Surrey Health Limited (continued)

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Other Companies Act 2006 reporting

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial period for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Independent auditors' report to the members of Central Surrey Health Limited (continued)

Responsibilities of directors

As explained more fully in the statement of directors responsibilities, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Extent to which the audit was capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- we obtained an understanding of the legal and regulatory frameworks and the company's compliance through discussions with management and our review of board minutes, including consideration of known or suspected instances of non-compliance with laws and regulations and fraud;
- we assessed the susceptibility of the company's financial statements to material misstatement, including how fraud might occur by meeting with management to understand where it is considered there was a susceptibility of fraud;
- we sample tested manual journal entries, in particular journals entries post with unusual characteristics;
- we sample tested revenue transactions and manual journals post to revenue to ensure revenue was appropriately recognised in terms of UK GAAP and that there was no evidence of management override of fraud; and
- we challenged assumptions made by management in their significant accounting estimates and judgements.

Our audit procedures were designed to respond to risks of material misstatement in the financial statements, recognising that the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery, misrepresentations or through collusion.

Independent auditors' report to the members of Central Surrey Health Limited (continued)

Auditors' responsibilities for the audit of the financial statements (continued)

There are inherent limitations in the audit procedures performed and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we are to become aware of it.

A further description of our responsibilities is available on the Financial Reporting Council's website at: <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Mark Hutton (Senior Statutory Auditor)
For and on behalf of BDO LLP, Statutory Auditor
Guildford, UK

Date: 13 December 2022

BDO LLP is a limited liability partnership registered in England and Wales (with registered number OC305127).

Notes to the financial statements

1. General information

Central Surrey Health Limited is a private company limited by shares and is incorporated and domiciled in England with registration number 05700920.

The registered office is Dukes Court, Duke Street, 4th Floor, Woking, Surrey, GU21 5BH

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the company's accounting policies (see note 3).

The financial statements are prepared in sterling, which is the functional currency of the entity. The following principal accounting policies have been applied:

2.2 Going concern

CSH are in a seven-year contract with NHS Surrey Heartlands CCG to deliver adult services until March 2024 with a possible three year extension to March 2027.

CSH also has a contract with Surrey and Borders Partnership NHS Foundation Trust delivering the Children and Family Health Surrey contract. The commissioners have exercised their option to extend the contract until March 2024, with this extension flowing to CSH as a result.

As a result of the Covid-19 pandemic, CSH were awarded a contract to March 2022 to set up and deliver a mass vaccination centre in Surrey, initially based at Epsom race course, and relocated to

Sandown race course in May 2021. In addition CSH have been awarded a contract variation within the children's service to deliver the Covid-19 vaccination to 12-15 year olds alongside the flu immunisation programme.

Covid-19 continues to impact CSH and the services we have delivered across the 2021/22 financial year, this pandemic has demonstrated the requirement for continued investment in community services. CSH has been significantly supported with our community services' response to the pandemic across 2020/21 with increased funding received in all contract areas. This has enabled CSH to roll out improved digital solutions to enable minimal impact on patient care through remote virtual appointments and interventions, something which CSH will continue to utilise. This increase in funding has enabled the directors to demonstrate the effects on care in the community from improved resourcing and has paved the way for a full contract review in north west Surrey to significantly increase the financial funding received to deliver healthcare services in the community.

CSH generated a pre-tax surplus and positive operating cash flows for the financial year whilst continuing to deliver within a national healthcare landscape that is focused on delivering savings. The directors have reviewed and challenged the organisation's forecasted income, expenditure, contract delivery and associated cash flows for the 12 months following approval of these financial statements and have concluded that CSH will have sufficient cash flow available to continue to trade as a going concern for a period of at least 12 months from the date of these financial statements and therefore have prepared these financial statements on a going concern basis.

2.3 Revenue recognition

The turnover shown in the statement of income and retained earnings represents the value of services provided in the year.

Turnover is recognised in the financial statements to the extent that the company fulfilled its contractual

Notes to the financial statements (continued)

2. Accounting policies (continued)

2.3 Revenue recognition (continued)

obligations to the client through the supply of therapy and community nursing services and where appropriate excludes VAT.

2.4 Intangible and tangible fixed assets

Tangible Fixed Assets

Tangible fixed assets are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended. Repairs and maintenance associated with tangible fixed assets are charged to profit or loss during the period in which they are incurred.

Intangible Fixed Assets

Intangible fixed assets include software which is deemed as not critical for hardware to operate, but assets which generate future economic benefits and the cost can be reliably measured. Intangible fixed assets are stated at historical cost less accumulated depreciation and any accumulated impairment losses. The useful economic life of intangible software is ranges between five to eight years, is reviewed on an annual basis to make sure that it continues to remain capable of operating in the manner intended.

Depreciation and Amortisation

Depreciation and amortisation are charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Medical equipment	-	three years
Fixtures and fittings	-	four years
Computer equipment	-	five years
Estates refurbishment	-	the term of the lease
Software	-	five to eight years

At each reporting date the company assesses whether there is any indication of impairment. If such indication exists, the recoverable amount of the asset is determined which is the higher of its fair value less costs to sell and its value in use. An impairment loss is recognised in the statement of income and retained earnings where the carrying amount exceeds the recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the statement of income and retained earnings.

2.5 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.6 Financial instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors and loans banks and other third parties.

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other accounts receivable and payable, are initially measured at present value of the future cash flows and subsequently at amortised cost using the effective interest method. Debt instruments that are payable or receivable within one year, typically trade debtors and creditors, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received. However, if the arrangements of a short-term instrument constitute a financing transaction, like the payment of a trade debt deferred beyond normal business terms or financed at a rate of interest that is not a market rate or in the case of an out-right short-term loan not

Notes to the financial statements (continued)

2. Accounting policies (continued)

2.6 Financial instruments (continued)

at market rate, the financial asset or liability is measured, initially, at the present value of the future cash flow discounted at a market rate of interest for a similar debt instrument and subsequently amortised cost.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the statement of income and retained earnings.

For financial assets measured at amortised cost, the impairment loss is measured as the difference between an asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the company would receive for the asset if it were to be sold at the reporting date.

Financial liabilities and equity are classified according to the substance of the financial instrument's contractual obligations, rather than the financial instrument's legal form. Financial liabilities are initially measured at transaction price (after deducting transaction costs) and subsequently held at amortised cost.

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

2.7 Leases

Assets held under finance leases, hire purchase contracts and other similar arrangements, which confer rights and obligations similar to those attached to owned assets, are capitalised as tangible fixed assets at the fair value of the leased assets (or, if lower, the present value of the minimum lease payments as determined at the inception of the lease) and are depreciated over the shorter of the lease terms and their useful lives. The capital elements of future lease obligations are recorded as liabilities, while the interest elements are charged to the statement of income and retained earnings over the period of the leases to produce a constant periodic rate of interest on the remaining balance of the liability.

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term.

2.8 Provisions

Provisions are recognised when the entity has an obligation at the reporting date as a result of a past event, it is probable that the entity will be required to transfer economic benefits in settlement and the amount of the obligation can be estimated reliably. Provisions are recognised as a liability in the statement of financial position and the amount of the provision as an expense.

Provisions are initially measured at the best estimate of the amount required to settle the obligation at the reporting date and subsequently reviewed at each reporting date and adjusted to reflect the current best estimate of the amount that would be required to settle the obligation. Any adjustments to the amounts previously recognised are recognised in profit or loss unless the provision was originally recognised as part of the cost of an asset. When a provision is measured at the present value of the amount expected to be required to settle the obligation, the unwinding of the discount is recognised as a finance cost in profit or loss in the period it arises.

Notes to the financial statements (continued)

2. Accounting policies (continued)

2.9 Defined benefit scheme

The organisation is a member of the NHS pension scheme which is an unfunded final salary scheme administered by the Pensions Agency. As the company cannot separately identify its share of assets and liabilities, contributions which are paid for staff who are members of the scheme are charged to the statement of income and retained earnings as incurred. Refer to note 16 for further details on the scheme.

2.10 Current and deferred taxation

The tax charge for the year comprises current and deferred tax. Tax is recognised in the statement of income and retained earnings, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the statement of financial position date, except that:

- the recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the

fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

The preparation of the financial statements requires the company to make estimates, judgments and estimates that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. The directors base their estimates on historical experience and various other assumptions that they believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Tangible and intangible fixed assets

Tangible and intangible fixed assets, are depreciated over their useful lives taking into account residual values, where appropriate. The actual lives of the assets and residual values are assessed annually and may vary depending on the number of factors. In re-assessing asset lives, factors such as maintenance programs are taken into account. Residual value assessments consider issues such as future market conditions, the remaining life of the asset and projected disposal values.

Property accruals

The directors establish accruals relating to rent and facilities management based on reasonable estimates. Factors considered in determining the accruals are based on previous contractual terms and discussions held with counterparties up to the balance sheet date. The values of the accrual is reviewed annually.

Notes to the financial statements (continued)

4. Turnover

Analysis by business contract:

	2022	2021
	£	£
North West Surrey Adults Contract	30,178,419	28,705,402
Children and Family Health Surrey Contract	30,894,386	29,212,072
Covid-19 Funding	4,265,229	5,556,350
Other	<u>13,693,250</u>	<u>18,825,401</u>
	79,031,284	82,299,225

Analysis of turnover by country of destination:

	2022	2021
	£	£
United Kingdom	<u>79,031,284</u>	<u>82,299,225</u>
	79,031,284	82,299,225

5. Operating profit

The operating profit is stated after charging:

	2022	2021
	£	£
Depreciation of tangible fixed assets	387,594	725,006
Amortisation of intangible fixed assets	481,637	1,074,552
Depreciation on assets under hire purchase	242,429	129,212
Fees payable to the company's auditor and its associates for the audit of the company's annual financial statements.	65,190	61,500
Auditor's remuneration for other services	5,700	14,215

Notes to the financial statements (continued)

6. Employees

Staff costs, including directors' remuneration, were as follows:

	2022	2021
	£	£
Wages and salaries	50,275,098	50,917,434
Social security costs	3,915,559	4,238,818
Cost of defined contribution scheme	5,236,329	5,581,336
	<u>59,426,986</u>	<u>60,737,588</u>

A defined contribution pension scheme is operated by the company on behalf of the employees. The assets of the scheme are held separately from those of the group in an independently administered fund. The pension charge represents contributions payable by the company to the fund and amounted to £5,236,329 (2021: £5,581,336). Contributions amounting to £615,806 (2021: £809,666) were payable to the fund at year end and are included in creditors.

The average monthly number of employees, including the directors, during the year was as follows:

	2022	2021
	No.	No.
Staff	1,520	1,637
Executive directors	6	6
	<u>1,526</u>	<u>1,643</u>

Notes to the financial statements (continued)

7. Directors' remuneration

	2022	2021
	£	£
Directors' emoluments	281,509	298,916
Company contributions to defined benefit pension schemes	33,915	22,610
	<u>315,424</u>	<u>321,526</u>

During the year no retirement benefits were accruing for directors (for 2021 this was £nil) in respect of defined contribution pension schemes.

The highest paid director received remuneration of £232,298 (2021 - £236,811) inclusive of employer's national insurance costs and employer's pension.

The value of the company's contributions paid to a defined benefit pension scheme in respect of the highest paid director amounted to £33,915 (2021 - £22,610)

Key management personnel

The total remuneration for key management personnel for the year totalled £1,012,295 (2021: £891,667).

The directors' remuneration disclosed above plus remuneration paid to members of the senior management team total £1,327,719 (2021 - £1,213,193).

Notes to the financial statements (continued)

8. Taxation

	2022	2021
	£	£
Corporation tax		
Current tax on profits for the year	-	(1,835)
Adjustments in respect of prior years	(474)	1,088
Total current tax	<u>(474)</u>	<u>(747)</u>
Deferred tax		
Origination and reversal of timing differences	(16,435)	98,557
Adjustments in respect of prior years	(7,297)	33,361
Effect of tax rate change on opening balance	41,258	-
Total deferred tax	<u>17,526</u>	<u>131,918</u>
Taxation on profit on ordinary activities	<u>17,052</u>	<u>131,171</u>

Factors affecting tax charge for the year

The tax assessed for the year is higher than (2021: higher than) the standard rate of corporation tax in the UK of 19% (2021 - 19%). The differences are explained below:

	2022	2021
	£	£
Profit on ordinary activities before tax	<u>20,218</u>	<u>107,808</u>
Profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 19%	3,841	20,484
Effects of:		
Adjustments to tax charge in respect of prior periods	(474)	1,088
Adjustments to tax charge in respect of prior periods – deferred tax	(7,297)	33,361
Fixed asset timing differences	(23,498)	67,557
Expenses not deductible for tax purposes	3,221	8,681
Remeasurement of deferred tax for changes in tax rates	41,259	-
Total tax charge for the year	<u>17,052</u>	<u>131,171</u>

Notes to the financial statements (continued)

8. Taxation (continued)

Factors that may affect future tax charges

A change in the main UK corporation tax rate, announced in the budget on 3 March 2021, was substantively enacted on 24 May 2021. From 1 April 2023 the main corporation tax rate will increase from 19% to 25% on profits over £250,000. The rate for small profits under £50,000 will remain at 19%. Where the company's profits fall between £50,000 and £250,000, the lower and upper limits, it will be able to claim an amount of marginal relief providing a gradual increase in the corporation tax rate. This will increase the company's future tax charge accordingly.

9. Intangible Assets

	Software	Total
Cost or valuation	£	£

At 31 March 2022	45,158	1,133,654	508,996	1,687,808
<i>At 31 March 2021</i>	115,653	908,492	735,067	1,759,212

The net book value of tangible fixed assets for the company includes an amount of £794,883 (2021 - £655,754) in respect of assets held under finance leases and hire purchase contracts.

Such assets are generally classified as finance leases as the rental period amounts to the estimated useful economic life of the assets concerned and often the company has the right to purchase the assets outright at the end of the minimum lease term by paying a nominal amount. The depreciation charged in the year in respect of such assets amounted to £242,429 (2021 - £129,212).

	<u>171,908</u>	<u>154,382</u>

16. Employee benefits

Past and present employees are covered by the provisions of the two NHS Pension Schemes. Details of the benefits payable and rules of the schemes can be found on the NHS Pensions website at www.nhsbsa.nhs.uk/pensions. Both are unfunded defined benefit schemes that cover NHS employers, GP practices and other bodies, allowed under the direction of the Secretary of State for Health and Social Care in England and Wales. They are not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, each scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in each scheme is taken as equal to the contributions payable to that scheme for the accounting period.

In order that the defined benefit obligations recognised in the financial statements do not differ materially from those that would be determined at the reporting date by a formal actuarial valuation, the financial reporting manual (FReM) requires that "the period between formal valuations shall be four years, with approximate assessments in intervening years". An outline of these follows:

a) Accounting valuation

A valuation of scheme liability is carried out annually by the scheme actuary (currently the Government Actuary's Department) as at the end of the reporting period. This utilises an actuarial assessment for the previous accounting period in conjunction with updated membership and financial data for the current reporting period, and is accepted as providing suitably robust figures for financial reporting purposes. The valuation of the scheme liability as at 31 March 2022, is based on valuation data as at 31 March 2016, updated to 31 March 2022 with summary global member and accounting data. In undertaking this actuarial assessment, the methodology prescribed in IAS 19, relevant FReM interpretations, and the discount rate prescribed by HM Treasury have also been used.

The latest assessment of the liabilities of the scheme is contained in the report of the scheme actuary, which forms part of the annual NHS Pension Scheme Accounts. These accounts can be viewed on the NHS Pensions website and are published annually. Copies can also be obtained from The Stationery Office.

16. Employee benefits (continued)

b) Full actuarial (funding) valuation

The purpose of this valuation is to assess the level of liability in respect of the benefits due under the schemes (taking into account recent demographic experience), and to recommend contribution rates payable by employees and employers.

The latest actuarial valuation undertaken for the NHS Pension Scheme was completed as at 31 March 2016. The results of this valuation set the employer contribution rate payable from April 2019 to 20.6%, and the scheme regulations were amended accordingly.

The 2016 funding valuation was also expected to test the cost of the Scheme relative to the employer cost cap set following the 2012 valuation, however, on 30 January 2019 the Government announced a pause to the cost control mechanism which was to form part of the valuation. This was due to the Court of Appeal in December 2018 relating to the transitional protection offered to some members in the 2015 pension reforms. On 4 February 2021, the Government announced that the cost cap mechanism calculations would be completed allowing for the transitional protection remedy costs.

Defined benefit scheme

The amount recognised in profit or loss as an expense in relation to the NHS Pension Scheme plans was £5,236,329 (2021: £5,581,336).

17. Financial instruments

Financial assets measured at amortised cost comprise trade and other debtors, accrued income and cash and cash equivalents less non-financial assets prepayments.

Financial liabilities measured at amortised cost comprise trade and other creditors, hire purchase liabilities and accruals less non-financial assets deferred income.

The company has no financial assets or financial liabilities recorded at fair value through profit and loss or fair value through other comprehensive income.

18. Share Capital

	2022	2021
	£	£
Allotted, called up and fully paid		
4 (2021 - 4) Ordinary shares of £0.25 each	<u>1</u>	<u>1</u>

Each shareholder shall only have one vote, even if more than one share is held. No share shall carry any entitlement to participate in the income or profits of the company. Any income or profits of the company shall either (a) be retained by the company for working capital purposes, or (b) at the discretion of the directors be distributed to such charity, charities or community interest companies (as incorporated in accordance with the community interest regulations 2005) as they may direct. The ordinary shares are not redeemable.

19. Analysis of changes in net debt

	01 April 2021	Cash Flows	Other non-cash changes	31 March 2022
	£	£	£	£
Cash at bank and in hand	12,688,052	(2,390,401)	-	10,297,651
Obligations under finance lease and hire purchase contracts	649,961	(226,511)	381,558	805,008
	13,338,013	(2,616,912)	381,558	11,102,659

Non-cash movements relate to:

Obligations under finance leases: during the year the group entered into new finance leases in respect of assets with a total capital value at the inception of the leases of £381,558.

There are no restrictions over the use of the cash and cash at bank and in hand balances

20. Events after the end of the reporting period

There are no post balance sheet events to report.

21. Controlling party

The directors are of the opinion that there is no ultimate controlling party.
