

Things to do with foil

What you can do

- Twist the foil and make snakes
- Roll the foil into different sized balls then throw them at empty water bottles like skittles
- Wrap up objects and play 'guess what this is' games
- Make mini scenes out of foil such as a river with boats on

What you can talk about

What you are doing

Rolling, squeezing, scrunching, bending, folding, smoothing, flattening

What the foil is like

Thin, light, floppy, shiny, bright, crumpled, prickly, reflective

Language for thinking

When guessing what's in the parcels, talk about what you think it is, what you guess it could be, what you hope it is; compare the size of foil balls that you make and talk about them getting bigger

Make believe

Create monsters and scenes out of foil then act out stories
